

SALE NO.09 OF 02ND/03RD MARCH, 2021

COMMENTS

The monthly national averages for February, 2021 have been released by the SLTB and a noticeable feature is the stronger averages secured for most orthodox elevation categories in February, 2021 as compared to the previous month whilst in the case of CTC teas, the averages for February of all three elevations have shown fairly sharp month-on-month declines ranging from – Rs. 16.16 for CTC High, - Rs. 16.71 for CTC Medium, and – Rs. 19.63 for CTC Low. Last month's elevational averages for all categories however, are significantly higher than those of February, 2020.

This week's tea auction (Sale # 9) was conducted on March 2 & 3 (Tue/Wed) and, the offer quantity of 5.4 m/kgs showed a drop of 0.6 m/kgs over the previous auction. The Low Grown Leafy/ Semi Leafy/ Tippy & Small Leaf/ Premium Flowery catalogues totaled 2.5 m/kgs, whilst Main Sale High & Medium category amounted to 0.5 m/kgs. The Ex Estate catalogue had 0.8 m/kgs.

Ex Estate teas met with improved widespread demand. Select best Western BOP/BOPF gained Rs. 20/- to 40/- and substantially more in the case of teas supported by air-mail inquiry. Below best teas which opened Rs. 20/- to 30/- higher saw more selective demand as the sale progressed, and the market eased by the close. Plainer BOP's ruled firm whilst their corresponding BOPF's appreciated up to Rs. 20/-. Nuwara Eliya's were sharply dearer. Uva/Uda Pussellawa BOP's advanced Rs. 20/- to 30/- whilst BOPF's were mostly firm. CTC PF1's from the High elevation were barely firm while Mediums were irregular and declined Rs. 10/- per kg. Low Grown PF1's in the "best" category were firm but others were easier. Buyers for Germany, U.K. Japan and China were more active. Russia too was active for "Tea Bag" types.

Low grown leafy teas met fair demand. Best available OP1's were fully firm with cleaner below-best teas being selectively dearer. OP/OPA's too were well received and were firm to dearer, particularly the better made teas while other were barely maintained. In the semi-leafy segment most BOP1's held last levels while well-made Pek/Pek1's were firm to dearer. Stylish, true-to-grade FBOP's/FBOPF1's were firm but the balance was irregular following quality. Buyers for Saudi Arabia, Iran, Kuwait, Syria and other Gulf States were active. Russia and the CIS together with Turkey were more active for teas suitable for their favorite buying standards. There was again plenty of interest at the bottom from Iraq and Libya.

This week's auction comprised of **9,958** lots with a total quantity of **5,415,971** kgs.

Picking up the wife's Test Results

Mr. Smith goes to the doctor's office to collect his wife's test results. The lab tech says to him, "I'm sorry, sir, but there has been a bit of a mix-up and we have a problem. When we sent the samples from your wife to the lab, the samples from another Mrs. Smith were sent as well and we are now uncertain which one is your wife's.

Frankly, that's either bad or terrible." "What do you mean?" "Well, one Mrs. Smith has tested positive for Alzheimer's disease and the other for AIDS. We can't tell which your wife is." "That's terrible! Can we do the test over?" asked Mr. Smith. "Normally, yes. But you have a health maintenance organization (HMO), and they won't pay for these expensive tests more than once."

"Well, what am I supposed to do now?" "The HMO recommends that you drop your wife off in the middle of town. If she finds her way home, don't sleep with her."
